AMS Casual Friday / Christmas Donations

AMS Instrumentation and Calibration/ Trimec Flow Products / AMS Water Metering will again donate \$3,500 to the [Cancer Council Australia](http://www.cancer.org.au). to fight a variety of cancer diseases. Cancer comes in many forms and affects many people in different ways, either personally or through connections.

Find out more about at their website [Cancer Council Australia](http://www.cancer.org.au)

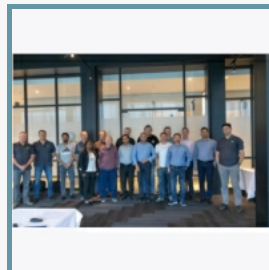

AMS News

2018 proved to be another exciting year for AMS with all states and territories performing very well. Budget was achieved early December to end the year on a high.

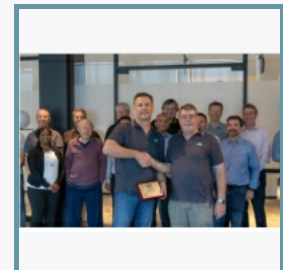

AMS was appointed Bronkhorst distributor as of December 1 and we look forward to a long and successful association.

This years performance gives us great hope for an exciting 2018, which I hope will see AMS grow further.

Sales Meeting

The sales meeting just before the Christmas break proved to be invaluable with participation from all to discuss not only sales budgets and strategies, One day and a half was spent on Bronkhorst technical training to familiarise the sales staff and ensure knowledge was gained on the product range. All agreed that it was a great meeting. The Christmas party afterwards proved to be a success with many wives/partners present.

Mike Farkas

As per previous years AMS offers a reward for exceptional performances. In general this has gone to sales offices or a department, but this year it was decided to give it to an individual that has given so much to the company. Mike Farkas who has been with the company for more than 30 years and has been our expert on Calibration and Flow for many of those is a well deserved recipient of the 2018 reward.
